2015 Leonardo Summer University: Registration now open

From 2 to 8 July 2015, the University of Luxembourg will be holding the ninth edition of its Leonardo Summer University, aimed at pupils in the upper years of secondary education, starting from the 12th year of secondary education (2e and 12e). This year the subject for study will be 'time', with seminars and multidisciplinary activities organised by the University's teaching staff at the Kirchberg campus.

The programme includes lessons in biology, law, French, economics, psychology, physics, engineering and history and visits to a number of laboratories and to the University's new site at Belval. Pupils will receive a certificate of participation at the end of the 2015 Leonardo Summer University.

This is the ninth consecutive year that the University has organised this activity, which is very popular with young people; it gives them a taste of what university life is like.

The programme of the 2015 Leonardo Summer University, entitled 'As time goes by' (Passe passe le temps...), is available on-line at www.uni.lu.
